"Pride of the Purchase"

A high grade, patent flour—home-made. You will like it. Try it and be convinced.

"Success"

A strict patent, second only to P. P. Use is proof. Make the test.

"Snow Drift,"

A good, Straight Grade—None better made.

"Daisy,"

A good, honest, strictly choice flour. Also

Pure, Fresh Corn Meal

Made of select corn.

All manufactured and for sale by the undersigned.

Second-hand flour barrels, our own preferred, bought for cash at our cooper shop across the street.

We pay the highest cash price for wheat and corn. We also sell corn, bran and chicken feed and exchange any and everything in our line for wheat or corn.

Come to see us, or communicate with us, Street No. 220, South First, Telephone No. 356.

We spend our money at home for the raw material. Let us have some of it back for the manufactured article, so that we can continue to do business ourselves and at the same time help you. The money we pay out for grain and labor mostly stops in town, and the more our own people consume of our output the more we can make a market for home-grown breadstuffs and home labor. Business makes money circulate, one transaction helps another, and so it passes from hand to hand, and the community is helped.

Yours for good times,

It is now said that the confession of Noah Baany that Rev. Hinshaw, who is now serving a life sentence for murdering his wife in Indiana, is not guilty, is all a plot to free Hinshaw, and that Hinshaw himself concocted the plot. If the reverend convict is guilty he is the most cold-blooded knave in criminal records.

A leading French journal imports this information to its readers: "The United States has no war power. Its navy is composed of a few modern ships which can not put to sea, and its army made up of a great many generals and a few negro and Indian troops of no discipline and poorly armed." If Spain acts upon the French view, she will get some experience, even if she does not retain Cuba.

Thus, the great trade barometer, is going up in price, every week showing a substantial increase. The iron furnaces of the South never have done so much business before, those in the Birmingham district having even now sold all their output for the rest of this year. These facts mean a great deal to those who watch the "signs of the times," but here's dollars to doughnuts that the free silver orators will deny that prosperity has arrived even in Birmingham.

Think back two years and compare the condition of the streets of Paducah now with their condition then. It was a fact that men were seen on our principle streets fishing in the mud holes. That was the work of a practical joker, but it demonstrated the true state of affairs, and the records show that more money was spent for repairs on the streets that year than has been spent for repairs this year. This is one of the records of the present city council that they are proud of and there are numerous others which will remind the people of from time to time.

Our friend who edits the "White Metal Democrat" at Fulton, Fulton county, State of Kentucky, accuses the Six of "maliciously lying" about W. J. Bryan. That is, however, very unkind. The Six has the kindest feelings for Mr. Bryan, always sympathizing with the "under dog," and as for the "White Metal Democrat," we consider that for a rural exponent of a dead issue, it is a pretty fair success. While the editor is not reading the Six, he is dreaming about Bryan in 1900, and the Resurrection Day, and of course the ideas thus imbibed don't always "goe." The right and proper thing to do then is to accuse the Six of "lying."

"BRADSTREET'S" which is one of the most conservative business publications in the country, continues to report a remarkable development in manufacturing and business generally throughout the United States. Its latest issue shows that the railroads are so crowded with business as to require an enormous increase in their cars for transporting grain and other products; two roads, whose main offices are in Ohio, having just ordered 1000 new box cars each. Other Ohio industries also seem to be doing well, the Cleveland Rolling Mills announcing that they are just receiving an order for 1000 tons of our steel, to be exported to Birmingham, England, and three large cordage mills at Lima, Ohio, which have been silent for several years, being put into operation with a full force of hands. From other states there are equally gratifying reports. The Bridgeport, Pennsylvania, woolen mills, which have been idle for nearly three years, announce that they will resume operations next week. The West Paper Mills, of Malone, New York, which have been idle for a year or more, will be reopened at once; the "Industrial World" reports the markets practically bare of fountry pig iron, owing to the large demand, while the "American Agriculturist" reports the interest in farm loans in the West phenomenal, low, having fallen very much as compared with the rates of former years. These conditions, when they are considered with those of the corresponding period in the Cleveland misadventure, are all the comment that is needed by way of justification of the action of the people of the United States in last year's presidential election.

ALL dead game sports evidently look alike to the young American woman who snubbed H. R. H. the Prince of Wales.

It is very much in order when the announcement is made that Hon. Mr. So-and-So will speak for Democracy, to specify which branch is meant.

"The Times" is every where reviving, the furnace have again been lighted, the forges are flaming, the factories are running. We see clouds of smoke by day and pillars of fire by night."—Senator Foraker.

HON. L. R. TAYLOR, the brilliant young Populist orator of Paducah, will make some speeches in Calloway for Judge Cook—Murray Ledger. But he came uncomfortably close being a brilliant "Democratic" orator, only about forty votes.

TAMMANY HALL had decided to ignore national issues in the coming campaign for the control of Greater New York. The Tammany braves are after pie this year and they don't propose to be hampered by any weights that are not strictly vote getters.

"Laron has been again called to remunerative employment, and in the houses where want and penury were felt there is again the happiness that comes from industries labor, and the promise of plenty that follows upon employment."—Senator Foraker at Bolton, O.

The taking of testimony in the preliminary hearing of the Commonwealth vs. Sheriff Martin and the deputies who shot down the unarmed miners discloses the fact that the Sheriff gave the order to fire. The Sheriff and every one of the one hundred and two deputies are under \$5,000 bond for murder and \$1,000 bond for feloniously wounding.
